

April 2025 UPARC in the Park

Saturday, April 12th 8:15 am setup (9:00am operate)

Honeymoon Island State Park, Dunedin, FL (US-1880)

[North Island Playground, North Pavilion](#)

- This will be a “run what you bring” event. Bring your portable operating station and setup to operate at the park. Have all your gear on hand, including a power source.
- You can operate CW, SSB or FT8 on 10, 12, 15, 17, 20, 30 and 40m bands
- First to setup gets first pick of mode and band. Other modes and bands will be coordinated among all those operating. *Please, no band changes without approval.*
- No more than 3 stations will be operating at one time. Once a station reaches 20-25 contacts, they will go QRT and the next station in queue can go QRV. *If no other stations are waiting, you may continue to operate*
- If you don't have a portable station to bring, come on out and help operate/log or check out the setups and ask questions about others' gear, or have someone check over your gear or ideas
- Listen and learn how to work pileups and get more comfortable operating a POTA activation
- Bring your own drinks, snacks, chairs, sunscreen and bug spray
- 146.520 & 147.120 (+600khz & PL100hz) will be monitored

Hosted by:

Upper Pinellas Amateur Radio Club

All licensed radio operators are welcome!
